More protection for healthy, shiny hair

The Philips ProCare hairdryer protects the hair from overheating with advanced EHD™ technology. The specially designed air outlet spreads the heat gently onto the hair and avoids damaging temperatures on the hair and scalp.

Less Hair Damage
- Less overheating with Even Heat Distribution technology
- More Care with ion conditioning for shiny, frizz-free hair
- More Care with ceramic elements, providing far-infrared heat
- Best drying temperature with ThermoProtect temperature

Beautifully styled hair
- Cool Shot sets your style
- Perfect styling results with a slim styling nozzle
- Volume diffuser enhances volume, for curls and bouncy styles

Easy to use
- Six flexible speed and temperature settings for full control
- Avoid hair trapping with the removable filter

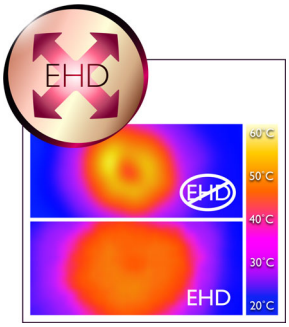
Highlights

Advanced EHD technology



Advanced Philips EHD technology means that your dryer uses a uniquely designed air outlet to ensure heat is always distributed very evenly - even at high temperatures - and prevents damaging hot spots. This gives ultimate protection to the hair from overheating and thus helps to keep your hair healthy and shiny.

ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results, whilst being kind to your hair.

Ionic Care

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static hair, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

More care with Ceramic element

The ceramic element issues far-infrared heat, which has a gentle warmth that helps dry your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Slim styling nozzle

Perfect styling results and a shiny, polished look with a slim styling nozzle for precise styling.

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

Specifications

Technical specifications

- Wattage: 2300 W
- Cord length: 2.5 m
- Colour/finishing: Purple

Features

- Cool shot
- Dual voltage: No
- Ceramic coating
- Ion conditioning
- Hanging loop

Service

- 2-year guarantee

Issue date 2013-12-05

Version: 1.0.1
